The ReCAP Auto Dealer Location Database: The Ideal Marketing Tool for Site Selection and Analysis

ReCAP's Auto Dealer Location Database is a comprehensive listing containing more than 38,900 dealer locations by automobile brand. This data allows you to visualize locations in any geographic area. The level of detail makes ReCAP's Auto Dealer Location Database ideal for building sales and marketing plans. A current, verified file sorted by brand in every market in the United States, it provides a comprehensive view of today's dealer landscape. The data can help you make intelligent, strategic decisions

Auto Dealer locations in Denver

quickly utilizing up-to-date information. It can also be completely customized with the fields and geographic areas that pertain to your business and choose the

format that works for you.

ReCAP Automotive data will work seamlessly with your current mapping applications.

What makes ReCAP's Auto Dealer Location Database different?

ReCAP's Auto Dealer Location Database is a thorough, *continually updated* and verified database that is checked for accuracy and completeness utilizing the most rigorous and

reliable sources and processes available. **Other location database files require you to wade through duplicate records and misclassified data, and include non-retail**

locations, corporate offices and distribution points. ReCAP records are individually researched and verified to ensure the correct industry classification.

The Most Comprehensive Auto Dealer Location List Available

Data Sources

The data is compiled from commercially and publicly available sources as well as **CAP's own proprietary data** for the retail industry, including:

- Chain Directories from HQ
- Internet Chain Directories
- Franchise Circulars
- Business List and Phone Data
- Public/State Data
- Retail Guides and Magazines
- Phone Verifications

Vintage
