Over 93% of the total business records geocoded to street-level accuracy

Find opportunities quickly and easily

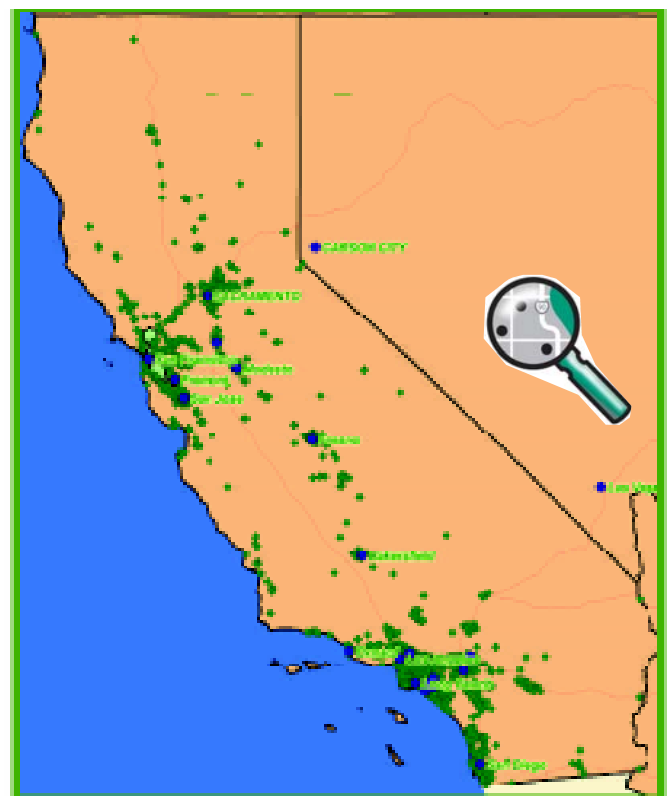

ReCAP's Shopping Center Database provides the information you need to:

- Analyze market opportunities
- Analyze competitive threats
- Build sales and marketing strategies
- Assign sales territories

ReCAP Shopping Centers Database Is The Most Comprehensive of Its Kind

ReCAP's Shopping Center Location Database is a listing of more than 33,000 Shopping Center locations in the U.S. This data enables you to visualize Shopping Center locations in any geographic area and includes vital information such as tenant name, address, category, longitude and more. The data we deliver can be completely customized. Select the fields and geographic areas that pertain to your business and choose the format that works for you.

Shopping Centers—California

The data works seamlessly with your current mapping applications.

What makes ReCAP Data different from other databases?

ReCAP Shopping Center Database is a thorough, **continually updated** and verified database that is checked for accuracy and completeness utilizing the most

reliable sources and rigorous processes available. **Other location database files require you to wade through duplicate records and misclassified data.**

ReCAP records are individually researched and verified to ensure the accuracy.

Data Sources

The data is compiled from commercially and publicly available sources as well as **CAP's own proprietary data** for the retail industry, including:

- Chain Directories from HQ
- Internet Chain Directories
- Franchise Circulars
- Business List and Phone Data
- Public/State Data
- Retail Guides and Magazines
- Phone Verifications

Vintage

ReCAP's Shopping Center database is updated continuously. You can request specific regions to be collected, analyzed and processed. Current release:

July 2011

The Most Comprehensive Shopping Center List

Listings include more than 33,000 shopping centers in the U.S. & Canada with over 200,000 categorized tenants in both retail and restaurant. CAP has taken a unique approach by data mining our ReCAP Retail and Restaurant data to populate the tenant listings. This is unique approach enables customers to track tenants that are important to them with up to date information. ReCAP Shopping Centers is one of the most extensive databases
